Dear Quayside Resident

In the next while, the Quayside Community Board will be mailing you your own personal vinyl card for reporting unwanted, or welcomed, Rail events. This vinyl card will stick to any surface. This way you will be able to put it beside your bed stand, on your phone or anywhere you feel it will be convenient.

The members of the Quayside Community Board are extremely pleased with the way the rail companies have stepped up to the plate and worked out a set of solutions to help curb rail noise. This is a prime example of how businesses and citizens can work together to enhance an environment that we share.

Again, a sincere thank you goes out to Brian Allen and his father for their tremendous hard work to make this historical agreement a reality for everyone in the Quay area.
