

McInnes Overpass: Degelder Construction

We would like to notify you that *Degelder Construction* will be continuing off-site works associated with the Azure Towers development project, located on the Carnarvon Street between 8 Street and the McInnes Overpass. The original period of overpass construction and lane closure's for this work has been extended due to unforeseen circumstances. The off-site works include widening and reconstruction of McInnes Overpass.

During this phase of construction it has been necessary to close southbound traffic on McInnes Overpass at Carnarvon Street. These works are currently ongoing and are scheduled to tentatively re-open two way traffic on the overpass by Saturday July 9, 2011.

During construction, southbound traffic on McInnes Overpass will be detoured at Carnarvon Street. The current detour route in effect is as follows and will remain in place for the duration of schedules works:

- Eastbound traffic on Carnarvon Street will be detoured east to 8 Street, south to Columbia Street, east to Begbie Street and south to Quayside Drive.
- Westbound traffic on Carnarvon Street will be detoured west to 10 Street, south to Columbia Street, east to Front Street and south to Quayside Drive.

Degelder Construction would like to thank you for your patience and understanding as minimal delays are expected.

If you have any questions or concerns, contact Mr. John Gildersleeve of Degelder Construction 604-688-1515
